The Ole' Guys

Just a note to thank all the members of Local 32 who provided a great luncheon at the Milano Club for our December retirees meeting. It was an enjoyable afternoon of food, friends and fellowship.

We shared our aches and pains, our past years trips, our kids lives and what gets us up and going everyday. But what we realized was just how lucky we were to be a part of an organization that honors those who have gone before them.

All of us are truly appreciative of you current working members, and remind you that the brothers and sisters you work with today may become life long friends tomorrow.

When you are kind to others, it not only changes you, it changes the world.

In Solidarity,

Florian Smith
