Training Director's Report

As we reach the end of 2023, I would like to wish everyone a Happy Holiday Season!

Additional classes are available for Journeyman Continuing Education: Harassment Prevention, Applied Codeology 2023, Conduit System Fabrication and Construction Drawings. We would like to see everyone sign up and show up for more classes. It's a great way to expand your knowledge and become a more effective worker while making some extra money!

We almost have enough people signed up to schedule the CDL – Class A and Welding classes for our Journeyman's Training curriculum. If interested, don't delay. Sign up now!

As always, let me know if you have any suggestions.

The Ole' Guys

What an enjoyable afternoon ten old, retired electricians had at our November meeting! So many truly funny job-related memories were shared by all. Stories ranged from bygone ways of how we reached staggering heights at the refinery, to hanging from crane rails at Empire Steel in Mansfield, to riding overhead cranes with a ladder, to change mercury vapor lamps at Fruehauf, or knocking filthy black soot onto unsuspecting plant managers while moving picks in the steel. We shared memories of friends, some who are still here and some who aren't, but all were not forgotten. That is the joy of our meetings, looking back on a working life of experiences, friendships and hard work. A life to be proud of and celebrated.

Looking forward to seeing all of you retirees on December 6th.

We either make ourselves happy or miserable. The amount of work is the same. --Carlos Castaneda
