**VERY IMPORTANT**

Is your beneficiary information up-to-date? Often, when we have life changes or move to a new home, we forget to make the changes on the forms that can affect our Health Insurance and our retirement. Please contact the hall to update anything that may have changed so that we can make sure your information is accurate!

**Training Director's Report**

I would like to congratulate the JATC Graduating Class of 2024. It was an honor to work with these fine electricians through their apprenticeship, and I look for great things from them in the future. Please congratulate Hayden Brown, Evan Deiters, Anthony Evans, Briana Evans, Bethany Glisson, Kenneth Greene, Devon Krendl, Douglas Shaffer and Coy Stauffer!

Summer seems to be here in full swing! Just want to remind everyone to stay hydrated. The heat can be dreadful, and we want everyone to go home safe.

We are in the process of testing and interviewing candidates for this year's Apprenticeship Program. We have a number of excellent applicants, and I look forward working with them in the future!

It looks like the CDL class will be starting on Monday, July 8<sup>th</sup> at 5:00pm. We are happy to offer this opportunity to our membership as this will benefit them as well as the contractors.

As always, let me know if you have any suggestions.

**The Ole' Guys**

Again, this month, a group of retired electricians gathered and shared stories about jobs of days in the past.

This month focused on those friends who are no longer with us and our own individual relationships with them. We came to the realization of how blessed we were to be able to share these memories while we can. One of the toughest parts of getting old is losing lifelong friends, people you have shared a large part of your life and memories with.

So, I would encourage all retirees to 'Carpe Diem', seize the day, and join us on July 10th to share stories and memories of friends who were and are part of your working lives.
