Training Director's Report

We are kicking around the idea of holding another **Instrumentation Class!** We are looking at feedback from **YOU** to see if there is enough interest in the class. Call and talk to Paul or Mike for details on how it will work.

If you missed the first **CDL - class** at Apollo, don't dismay. We are discussing offering this class again. We must have 8 participants to get it scheduled. Please call the training center for details.

Have you checked your First Aid/CPR certification date lately? If you are expired, please contact me so you can get the next class scheduled.

As always, if you have any ideas or suggestions, feel free to contact me.

The Ole' Guys

The LU 32 Retirees met again in a rather frigid January '25. Attendance was way down due to the fact that old guys stay in a lot when the weather is cold. The retirees who attended shared A1C numbers, PSA numbers and other assorted barometers of the aging process. Several helpful tips were shared regarding staying healthy.

Political discussions were very minimal, as we determined the nation has spoken.

Lastly, we shared our knowledge of any ailing brothers and sisters. So begin spring early, get out of house and your spouse's way and join us on February 12, at 2PM for fellowship and good conversation.
