TRAINING DIRECTOR'S REPORT

Weather is turning cold, autumn is here, and who knows what this winter will bring. I appreciate all our journeymen who share not only their skill, but also their knowledge on how to survive and thrive in what is sometimes brutal weather. Thank you to all the journeymen out there that are training and preparing the journeymen of tomorrow.

Our CDL and Instrumentation classes are full. However, I strongly encourage all journeymen to update their First Aid/CPR certifications, as well as your OSHA 30. It is becoming more common for the customer to require OSHA 30 and Arc Flash (70E) within the last 3 years. Don't miss out on a job you want because your certifications are old or expired.

A NEW & APPROVED Code Update class is in the works! We are planning on the class near the end of January, 2026. The date is TBD – But you don't want to miss it! Date and time coming soon!

There are several Journeyman Training classes that can provide you with new and updated training, and refresher courses. And you can earn a participation award for completing the classes. It's win-win... Training and money for you!

As always, if you have any ideas or suggestions, feel free to contact me.

The Ole' Guys

As summer slowly inched toward fall and children began returning to school, a group of retired old friends met on a sunny Wednesday afternoon in October.

As usual, the topics discussed were varied and interesting. The topics were the safety of vaccinations, the rise in the use of legal cannabis (pot), women's professional basketball, farming advantages and problems. Politics was even discussed in a measured and even-handed way. Much of the conversation was directed on our brothers and sisters who were sick or unable to attend.

I suggest that all of you who haven't attended a meeting, join us on November 12th at 2 PM and share a story with an old friend, while you both have the time.
