Monday, February 9, 2026—6:00pm—9:00pm

At the JATC Training Center. 2285 North Cole St. Lima, OH 45801

**TRAINING DIRECTOR'S REPORT**

Due to the severe weather we had this week, Comet Training has been rescheduled for later in the year.. This valuable training is rarely offered and goes a long way towards promoting the membership of the Local.

An upcoming Code of Excellence class is being scheduled soon. This certification is required training for many upcoming projects. We strongly suggest you take this class if you do not have this certification. You will need it to take Data Center calls and possibly others in the future. Date to be determined.

**A NEW & APPROVED** Code Update class is in the works! The 2 night – 4 hour class has been rescheduled to take place later in the year due to some changes in the Code. The date is TBD – But you don't want to miss it! Watch for it! Date and time coming soon!

As always, if you have any ideas or suggestions, feel free to contact me.

**The Ole' Guys**

Again, this January, a good number of LU 32 retirees spent an enjoyable afternoon sharing old job stories, remembering old friends and just enjoying an hour and a half talking to each other. Talking to old friends seems much more important as we age. Topics covered were the new WAWA gas station, increased gold and silver interest, the use of school vouchers and the qualifications of our various doctors. Come join us on February 12th and share your time and stories with old friends.

**“Count your age by friends, not years. Count your life by smiles, not tears.”** – John Lennon
