TRAINING DIRECTOR'S REPORT

We are looking forward to testing for the next Apprenticeship class! It is exciting to meet these men and women and help them prepare for a future as an electrician. If you know of someone who would like to make a phenomenal future for themselves as an Electrician, please have them contact me, or Jared at the hall!

A NEW & APPROVED Code Update class is in the works! The 2 night – 4-hour class has been rescheduled to take place later in the year. It looks like it will be scheduled near the end of June. Watch for date and time to be announced soon.

Please look over the many classes that are offered for Journeyman Training. These classes offer you the chance to update and enhance your skills and knowledge while earning \$\$\$ through a participation award.

As always, if you have any ideas or suggestions, feel free to contact me.

The Ole' Guys

As a good number of retirees sat down this month, it became apparent to me that the peace of being able to withdraw from the unpredictable world we currently live in and enjoy an hour or so of thoughts, and reflections with good friends is refreshing. The variety of those friends brought different perspectives and ideas. Topics ranged from rising gas and electric prices, kidney stones, updating beneficiaries, and a possible Delphos reservoir.

As always, there were stories about jobs and situations with old, remembered friends and the joy that was shared. We never forget the true satisfaction and memories of reflecting on a life well lived. Young members, make your memories now to enjoy in your later years.

Retirees join us on April 8th @ 2PM and share topics that only you know.
